

# BRUTAL GOD

handmade brutal rolling

For more than a decade BRUTAL GOD from Zurich stands for hard Death Metal, in combination with severely dirty Rock'n'Roll!

Founded in 1999 by Patrick, the combo has since toured through the Swiss underground scene of Extreme Metal and has shared the spotlight with such internationally known acts as Vital Remains (USA) and Sodom (GER).

After a number of releases in several lineups BRUTAL GOD presented in January 2012 the extended player «Back from Hell». The strongest ever combo consisting of Patrick (guitar and vocals), Mitch (guitar), Dave (bass) and Bari (drums) fully does justice to the band's name.

The EP contains re-interpretations of older tracks as well as new material. Production took place exclusively in the band's rehearsal den and unmistakably proves BRUTAL GOD's clear-cut profile and musical independence over the years.
